Additional tickets for any extra devices are available for just \$1 per day, \$5 per week, \$10 per month or \$25 for the season by purchasing access code tickets in the office. Please note that the materials used in construction of RVs (steel, aluminum, fiberglass) may inhibit signal strength, and best reception will be achieved at your picnic table outside your RV. Reception may vary based on your computer's wi-fi antenna, the weather or other factors that impact wireless signals. Our wi-fi is intended to allow campers to check their email and browse the web. It is not able to provide for streaming video, downloading movies or large files, nor should it be considered an alternative to a secure, wired connection that may be needed for some business applications.
