Wireless internet is available throughout the campground through Checkbox Wireless. One free hour for each device is provided each day, and each site receives 1 free ticket for one device for the duration of your stay. Additional tickets for any extra devices are available for just \$1 per day, \$5 per week, \$10 per month or \$25 for the season by purchasing access code tickets in the office. Please note that the materials used in construction of RVs (steel, aluminum, fiberglass) may inhibit signal strength, and best reception will be achieved at your picnic table outside your RV. Reception may vary based on your computer's wi-fi antenna, the weather or other factors that impact wireless signals. Our wi-fi is intended to allow campers to check their email and browse the web. It is not able to provide for streaming video, downloading movies or large files, nor should it be considered an alternative to a secure, wired connection that may be needed for some business applications.

## Seasonal Sites

There are still a few sites available for 2014 seasonal reservations, as well as for our spring or fall specials. Check with the office for a current list of sites.

**Parents please note**--You are responsible for the behavior of your children. Please make your children aware of our rules and curfews, and help us enforce them. All our campers appreciate your cooperation
